During these days of tight money it pays each and every conservative buyer to look for bargains. Not low grade goods, but good honest goods for the lowest prices. The old saving "A penny saved is a penny earne," contains a world of good adv.ce. Our goods in every line are the best; no "seconds" any place in the store, and our prices are from 10 to 40% lower than elsewhere in the coke region.

Number 1877 Won the 510 in Gold Yesterday.

Despite the threatening weather conditions and muddy streets, the attractive features of this sale drew hundreds of shoppers to our store yesterday. Ask your neighbors about the values they received. We are positive that no like values have ever been offered you in the month of November. We never advertised a sale price without the goods to back up the advertised prices-plenty of goods, tooso that this sale will hold its interest throughout the week, and instead of abatment it will increase in drawing power. Our values are greater than competitive offerings, because we have cut prices only on merchandise that stands in the way of Christmas goods. Naturally we make deeper price cuts on this particular merchandise than would or could be made if all the merclandise in the store was reduced. In addition to the sayings you effect by a purchase here this week

A Chance to Win \$10 in Gold Goes With Every Purchase.

We are giving away \$10 every day this week-so no matter what you may need--you may as well buy it here. That's what the biggest portion of the shopping public is doing. Every sales check is numbered and returned to the purchaser, and if the number on your check corresponds to the number in the envelope the \$10 in Gold belongs to yousomeone wins every day. It might be you tomorrow. The size of your purchase doesn't count. It's the number of the sales check that wins.
